

Extenders and Adapters

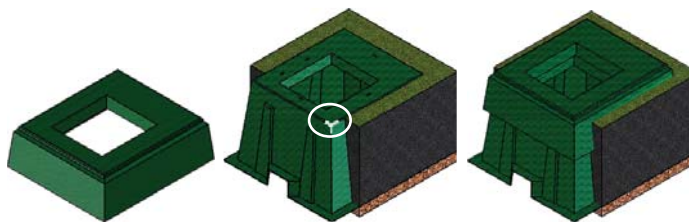

Extenders:

- Have a damaged box pad or a change in grade level? The GSE-4A-MG-22x24 and GSE-4F-MG-26x30 go over box pads with a 37" x 43" top surface. They can cover up a damaged box pad and raise it up 4" at the same time.

Adapters:

- GSA (ground sleeve adapters) mount to appropriate box pads providing a platform for other metal cabinets, deferral cabinets, and single phase sectionalizing cabinets. GSA-36-36-MG-25x10 mounts to the GS-80-36-36-MG-TS. The GSA-37-43-MG-21x10 mounts to GS-37-43-32 Series boxpads.

GSE (ground sleeve extenders) go over the box pad to cover up the damage or "extend" the box pad 4" higher.

GSA-37-43-MG-21x10 mounted to GS-37-43 box pad with ND-301830 single phase cabinet.

RGS-61-18-18-MG-55x10

RGS-61-18-18-MG-55x10

RGS-30-18-18-MG-21x10

Replacement Products:
 • RGS-30-18-18-MG-21x10
 • RGS-612-18-18-MG-55x10
 • RTP-42.5-45.5-7-MG-22x24

Replacement Ground Sleeve-Transformer Pads

Features:

- Two-piece units are joined by driving 3/8" stainless steel bolts into the floating nut assemblies on the sides and flange of the sleeve.

Benefits:

- Replacement ground sleeves can be installed directly over the rusted metal, broken concrete, or a damaged box pad with minimal interruption of service.

ND-450-MG-18EXT

ND-450-MG-101-X-X

ND-450-MG-101-X-X mounted to ND-450-MG-18EXT

Cabinet Extensions:

18" or 36" high cabinet extensions are available for most of our three phase sectionalizing cabinets. Allows for extra cable training and greater anchoring stability
